Statement of purpose

To,
The Visa Officer,
The Canadian High Commission,
New Delhi

Subject: Application for Canadian study permit

Sir / Ma'am,

The St. Francis Xavier University has given me an opportunity to pursue Master of Applied computer Science program for Fall 2022, and now I ask support from the government of Canada to grant me a study permit to pursue this course. The program is scheduled to start on September 6, 2022, and will continue for a duration of two years.

BACKGROUND:

Academic

During my senior secondary education, I was an active participant in our math's club and I have participated in many math events which helped me develop an interest in computer science. I have also actively worked on many computer science projects using C++ programming in my higher education and I was also an active participant in my school yoga club.

During my 4 years of under graduation, I was actively working on a lot of web development and machine learning projects like Malware detection in websites, A app to help blind people speak and a smart irrigation project with my friends and faculties. In college, I was also in the IoT club of our college and I was the board member and financial head. I conducted various programs cost effectively, which was appreciated by my board members and staff.

Work Experience

During my under graduation, I got an internship in a start-up company AGIXURY, which is a Delhi based travel agent company. I was a front-end developer, primarily working on User Interface design. I was mainly focused on development of login page for the website and I had collaborative interaction with back-end team for Integration and my work was highly appreciated by my managers.

After my internship experience, I was contacted by the company to give a seminar on how to collaborate with workers remotely with GitHub. I have also worked with my club members to get sponsorship for my club and conducted seminars to mentor students on how to get sponsorship from shops around my university.

MOTIVATION OF STUDY:

My interest towards computer science started when I was 14 years old when my school faculties taught me how mathematical concepts can be solved using programming. I was very interested in solving mathematical problems and learning programming drove me forward to take computer science as my majors in Higher secondary and Under Graduation. After working for more than 2 years on my fundamentals and exposing myself to various advanced programming concepts, my aim to become an expert in computer science helped me master concepts like Machine Learning, Social Information

Networks, Human Computer Interaction, Parallel Computing and Cyber Security. I have also worked on various projects in my university and I have read various papers written by Canadian authors. While reading about some of the real time projects I was very much encouraged to peruse higher studies abroad and I wanted to visually see and understand these projects to get the ideas to develop my own prototyped projects.

WHY CANADA:

Based on my Research in western education, Canadian institutions are among the top in the world, in providing high quality education. The way Canadian universities provide education is very unique and interesting in many ways. In my country, a degree from Canada will give me a cutting edge over other startups when I am starting my own company, and also help me establish a strong foundation in my discipline. Regardless of the program, the high-quality co-op program, internship and access to cutting-edge facilities are all the things that will help me grow professionally strong.

Canada takes all requires steps to give safe environment to international students and general public from healthcare to security. Canada has always given opportunities to students and professionals to improve people's skills to become internationally sound. I would like to use this opportunity to become strong in my skills and make significant improvements in my field. Canada is a beautiful country with traditional background which attracts international tourism I can explore more of Canada and learn about the country's cultures and people as much as possible during my course of study.

WHY ST. FRANCIS XAVIER UNIVERSITY:

St Francis Xavier university provides a research-intensive environment where students can collaborate with faculties and work alongside undergraduates and graduates. It will be an ideal environment for me to cultivate and fine tune a spirit of technology innovation. I will obtain a cutting-edge perspective on data science concepts with the brightest minds around the world. The excellent level of my experience in the university will help me fine tune my design ideas and help me climb to the top of my field.

The major subjects offered in the graduate program such as High-Performance Computing (CSCI 522), Software Engineering (CSCI523), Artificial Intelligence (CSCI545), and Data Mining and Machine Learning (CSCI555) are the major reasons I want to study at Francis Xavier University. These courses give me a strong foundation for my future in my country and major courses in tuning my startup project to perform better in the global market.

FUTURE GOALS:

I want to make my skills strong enough to start my own company in India, and I strongly believe a master's degree in Canada will help me in achieving my goal faster. After completing my masters, I will be working in an agriculture product-based company's like Godrej Agrovet Limited, National Agro-Industry as a product engineer for two to three years to learn more about the field and explore my opportunities. My family has always wanted me to contribute to the agriculture field and my motivation is to start a new company that provides smart Internet of things (IoT) based Agriculture products to farmers in my nation. I have already started working on some models for my company and I want to go abroad and learn more about IoT based farming at an international level.

FINANCE AND STAY:

My family spend close to 325,000 CAD for my under graduation from their liquid assets without taking any loan. Based on our family's recent CA valuation we have assets close to 915,000 CAD. My family can pay my 2nd-year fees and also fund me completely for my living expenses. I have paid my first-year Tuition Fees of 14,850 CAD and a 500 CAD Non-refundable Program Fee. I have also paid a GIC of 10,000 CAD in the State Bank of India Canada from our family liquid assets without taking any loan. And also my family's yearly income is close to 25,000 CAD, so they can support my tuition fees and my living expenses for my second year.

FAMILY AND TIES:

My father is an Associate Professor at Meenakshi College of Engineering. My mother was a Doctor and she passed away when I was 6 years old. I am the only child of my father and the only Grandson of my Grandmother. I have a very close relationship with my grandmother as she has always given me a mother's support even when she was 60 years old hence we will always share a close bond. My Father and Grandmother always supported me in every possible way and encouraged me to improve my academics and personality development.

As I am a single child to my father and a single grandchild to my Grand Mother, after completing my master's I will be coming back to India to take care of them. They have always supported me in every possible way. I want to support them during their old age. I have also started working on my startup dream project to provide automated agriculture products to farms and cities. My knowledge from my graduation will help me successfully achieve my dream and also help me reach great heights which is the dream of our family.

CONCLUSION:

I have previously travelled to Europe during 2017 for 20 days from 15th may to 3rd June alone as a tourist. I stayed in my relative's place in berlin and travelled across Europe. Getting an opportunity to study in Canada will give me great boost to my academic and personal background. Therefore, I place my request before Canadian High Commission to consider my application for student visa.

Thank you for reviewing my application.

Sincerely,

HARIPRASAD SIVAPATHAM ANAND

SKILLS

Programing Languages

Python, C, C++, Java

Web Technologies

NodeJS, ReactJS, HTML, CSS, JavaScript,
TypeScript, ReactJS, NextJS

Databases

MySQL, MongoDB, Firebase

Other

Git, Github, TensorFlow,
OpenCV, REST API

MOOCS

- The Complete SQL Bootcamp 2020 (Udemy)
- Machine Learning, Hands-on Python and R for Data Science (Udemy)
- 8051 Microcontroller Embedded C (Udemy)
- Complete Python Bootcamp (Udemy)
- Server Side Development with NodeJs and MongoDB (Coursera)

LANGUAGES KNOWN

- English
- Tamil
- Hindi

PERSONAL PROFILE

I am a computer science student and software developer with a keen interest in web development and data science. I am looking for a stimulating environment in which I can upgrade my skills and solve challenging problems.

EXPERIENCE

Data Science and Business Analyst

GRIP at Spark Foundation | October 2020- November 2020

- Made significant contributions to ongoing basic machine learning (ML) projects
- Prepared a ML model for web-site development.
- Peer reviewed interns project and improved my understanding.

Front-end Web Developer

Agixury | December 2020 - January 2021

- Developed the Gift Card page for the company website.
- Collaborated with the back-end development team to create the company Contact page
- Performed validation testing in collaboration with Testing team

EDUCATIONAL HISTORY

Vellore Institute of Technology

B.Tech Computer Science and Engineering | Jun 2018 - May 2022 (expected)

- CGPA 8.70
- Took part in HELPIN club by participating in teach match event
- Financial Head of IOthinc club

Devi Academy Senior Secondary School

High school diploma | May 2018

- 12th Grade (AISSCE/CBSE) - 82%
- 10th Grade - 9/10 CGPA
- Took part in school yoga day competition
- Took part in school sports day activity

OTHER WORKS

- [Dashboard of Javascript clones](#)
- Traveling Salesmen Problem using Genetic Algorithm.
- Faculty Review System using PHP.
- Cache Compression in Linux
- Vehicle Logo Recognition using openCV
- IOT based Smart Foot Device for safety.
- Dynamic speed restriction using sensors.
- Online event management using PHP
- Parallelization of Data Structure Algorithms.
- Malware detection using machine learning
- Prevention of Real Time Attacks using Auto Encoders

EXTRACURRICULAR ACTIVITIES

- Cricket
- Football
- Chess
- Tennis
- Badminton

RECENT PROJECTS

Quality Analysis and classification of rice

Fall semester | August 2020- November 2020

- Developed for the subject Human Computer and Interaction
- Created application using Dash Graphical User Interface (GUI) application
- Created image processing functions using openCV to identify non rice particles

Credit Card Fraud detection using Neural Network and PHP.

Fall semester | August 2020 - November 2021

- Developed for Software Engineering
- Trained a hybrid neural network model with self organising map and artificial neural network
- Created GUI using PHP for customer fraud prediction

Maximizing Influence Spread in Social Media using improved CELF Algorithm and Centrality Measure.

Winter semester | January 2021- May 2021

- Developed for Social and information Network
- Improved time complexity of the algorithm using degree and closeness centrality
- Helped in finding network influencers for large networks in short time

PAPERS PUBLISHED

Automatic Exam Generation and Evaluation: A teacher tool

International Research Journal and Engineering and Technology | Volume 08 Issue: 09 September 2021

- Developed an application which generates tests on natural language processing.
- Used NLTK toolkit library and flask library to develop this application
- Helps faculty conduct exams by generating subjective and objective questions based on a text

A Helping Hand for Disabled People

International Research Journal and Engineering and Technology | Volume 08 Issue: 10 October 2021

- Developed for real world networks
- Developed a sign language converted for deaf and dumb.
- Created a braille to text converted for blind people

Certificate of Internship

We extend this certificate to

Mr. S A Hariprasad

On the 15th day of January, 2021 realising his outstanding performance as an intern in
Front End Web Development Dept. during December 14th to January 10th, 2021.

We highly appreciate for his best efforts in our Achievements.
